## Mr. and Mrs. Gupta's new lease of life

Discover how the Lifestyle Lift helped the Guptas to stay in the house  
and the neighbourhood that they love

## A narrow staircase and limited living room space meant that the Lifestyle Lift was an ideal solution for the Guptas.

Mr. & Mrs. Gupta have lived for many years in their lovely semi-detached house in Harrow, Middlesex, UK. The house is a perfect home for the couple but for the stairs, which Mrs. Gupta was struggling with due to her age.

Mr. Gupta had seen the Lifestyle Lifts website and he liked the stylish appearance of the lift. The Guptas' living room had limited space, but due to its small footprint the Lifestyle Lift could easily fit in a corner of the room, rising up to the bedroom on the first floor.

The Guptas considered carefully all of the different suppliers available and decided that the Lifestyle Lift could offer them the best value in terms of quality, product safety, compliance with standards and UK manufacture. "I spoke to Terry Lifts' Customer Services team a couple of times and I was really happy with the level of service and how their team provided answers to all the questions that we had", Mrs. Gupta said.

**"Terry Lifts' installation engineers were very good and they left the work area in the good condition that they found it in."**

Mrs. Gupta

## A perfectly safe, quickly installed lift

The standard configuration of the Lifestyle Lift includes all of the top notch safety features that Terry Lifts are famous for. An optional phone was fitted in the lift to give the Guptas that all-important, added peace of mind.

The Lifestyle Lift does not require any major preparatory works to be carried out in the house. The lift installation was straight forward and completed within a couple of days. The Guptas were delighted with the care Terry Lifts took when installing the lift. "Terry Lifts' installation engineers were very good and they left the work area in the good condition that they found it in", Mrs. Gupta said.

With the Lifestyle Lift in place, Mr. & Mrs. Gupta can now continue to enjoy their life in the house and neighbourhood that they love.
